	DC BRETT	Okay, alright. So...obviously we've spoken about that now. With respect, anything you wish to ask about that?
	DC AVERY	You mentioned about people can actually access another person's computer using a programme called 'Rat'?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Yeah.
	DC AVERY	Have, has that ever happened...
	<span style="background-color: black; color: black;">[REDACTED]</span>	Well there's lots of, lots of programmes that do it.
	DC AVERY	Oh right. Has that ever happened to you? Where someone's accessed your computer?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Not knowingly.
	DC AVERY	No, so is there any files that have appeared on your computer that you've had no knowledge of?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Oh yeah, but I, I wouldn't put that down to Rat, I'd put that down to erm, er software off Pi, Pirate Bay really. I, I, I use Pirate Bay for downloading and operating systems and software as well.
	DC AVERY	Okay.
	<span style="background-color: black; color: black;">[REDACTED]</span>	And obviously they've gone through a hacker, they can put what they like in there.
	DC AVERY	Yeah.
	<span style="background-color: black; color: black;">[REDACTED]</span>	If you see what I mean?
	DC AVERY	So if you've downloaded something...
	<span style="background-color: black; color: black;">[REDACTED]</span>	Yeah.
	DC AVERY	...and it's not what you've wanted...
	<span style="background-color: black; color: black;">[REDACTED]</span>	Yeah.
	DC AVERY	...what would you then do with that file?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Erm just delete it.
	DC AVERY	Okay and how, how would you delete it from the computer?
	<span style="background-color: black; color: black;">[REDACTED]</span>	If it was...if, if I downloaded a piece of software that was quite

	DC BRETT	...you would, you just type in what you wanted rather than going to films, Frozen, you'd just put it across the website and then it would bring up a list...
	<span style="background-color: black; color: black;">[REDACTED]</span>	Mostly yeah.
	DC BRETT	Okay.
	<span style="background-color: black; color: black;">[REDACTED]</span>	If for instance it brought back a, a lot of rubbish and weren't what I was looking for, then I'd narrow the search but...
	DC BRETT	Right, okay.
	<span style="background-color: black; color: black;">[REDACTED]</span>	...but I would, I would never normally have, have to narrow it.
	DC BRETT	Okay. So as far as you're concerned, you've never seen any indicative titles come back?
	<span style="background-color: black; color: black;">[REDACTED]</span>	No I haven't.
	DC BRETT	Anything that's caused you any concern?
	<span style="background-color: black; color: black;">[REDACTED]</span>	No.
	DC BRETT	Right and you've not downloaded anything...
	<span style="background-color: black; color: black;">[REDACTED]</span>	No.
	DC BRETT	...that's caused you concern?
	<span style="background-color: black; color: black;">[REDACTED]</span>	No.
	DC BRETT	Okay, alright.
	<span style="background-color: black; color: black;">[REDACTED]</span>	Well apart, apart from viruses and things but certainly no images that's caused a concern.
	DC BRETT	Okay when was the last time you had a virus?
	<span style="background-color: black; color: black;">[REDACTED]</span>	I think it's got one now.
	DC BRETT	Has it?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Probably yeah.
	DC BRETT	Okay, how do you know?
	<span style="background-color: black; color: black;">[REDACTED]</span>	I don't know specifically but a lot of software that I have on is from Pirate Bay.

	DC BRETT	Right.
	<span style="background-color: black; color: black;">[REDACTED]</span>	And the people that upload software to Pirate Bay have usually had a hand in what that software does, so it doesn't always do what it was manufactured to do if you know what I mean?
	DC BRETT	Okay.
	<span style="background-color: black; color: black;">[REDACTED]</span>	So they've got their, their, their password generator and things like that.
	DC BRETT	Right.
	<span style="background-color: black; color: black;">[REDACTED]</span>	And nearly always are viruses.
	DC BRETT	Okay. Alright and do you have internet security?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Erm sometimes, I can't remember if there is one on there now. There's no firewall erm, sometime I, I have anti-virus...
	DC BRETT	Yeah.
	<span style="background-color: black; color: black;">[REDACTED]</span>	...but I'm not certain it's on there now.
	DC BRETT	Okay and who would you, who would you have used it for previously? Or maybe on there now?
	<span style="background-color: black; color: black;">[REDACTED]</span>	AVS.
	DC BRETT	AVS?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Yeah.
	DC BRETT	Is that something you pay for?
	<span style="background-color: black; color: black;">[REDACTED]</span>	No.
	DC BRETT	No, okay and would you know if that's up to date?
	<span style="background-color: black; color: black;">[REDACTED]</span>	No I don't, I don't even know if it's on, on there still.
	DC BRETT	Okay, but when you were using it, was it...
	<span style="background-color: black; color: black;">[REDACTED]</span>	Yeah.
	DC BRETT	...up to date?
	<span style="background-color: black; color: black;">[REDACTED]</span>	Er I think so, I can't, I can't remember.
